

FCC, I am asking that you do no more to concentrate Media outlet businesses! The damage that has been done over the last two decade has been very considerable! I feel it is "YOUR RESPONSABILITY" to resolve this inequity! It is the basis for freedom and the protection of our Constitution at issue!

The Regan Administration severely diluted the rules governing the ownership (Monopoly) issue! Even though I can't sight on specific days or the specific rulings that were overturned or usurped, it is common knowledge that the rules guaranteeing there would be no monopolies established, were over ridden or completely removed!

If you (FCC) have any interest in returning this country to a democratically run experiment in freedom then you need re-establish those rules that were removed or somehow ignored! This is the complaint I have! Sincerely R. DeLuca
